

What Doc Provides

Doc provides most of what you need for your trip. This list indicates what Doc provides and what is available for purchase.

Available at Doc Warner's

- Doc Warner's seeks to make each guest as comfortable as possible with pleasant surroundings and all the basic necessities for a great fishing adventure. The list below identifies some of the amenities at Doc's.
 - Trading Post: Our "general store" is a place to purchase additional tackle, clothing, souvenirs and sundries.
 - Coin-operated Laundry: Purchase quarters, detergent and dryer sheets in the trading post.
 - Drying Room: Next to the generators is a drying room. This room provides a constant source of warm, breezy air, which is very effective at drying wet rain gear and warming up.
 - Vending Machine: Soda can be purchased from the vending machine. Water, candy and gum are available inside the Trading Post.
 - GPS/Fish Finders: GPS/Fish Finders are located on every boat. If you'd like to bring your own, let us know and we can load the waypoints on it for you.
 - Extra Bedding: Additional pillows and blankets are available upon request.
 - Midweek Towel Exchange: Towels are exchanged on Wednesday.
 - Gazebo/Fire Pit: Enjoy relaxing by the fireplace retelling your catch of the day stories. There's plenty of firewood. Please enjoy yourself and get to know your new friends.

Tackle

- Doc provides bait tackle as part of your fishing package. This includes, poles, line, reels, leader, weights, hooks and bait.
- Artificial lures, flashers, squid (hoochies), grubs, jig heads, etc. are available for purchase in the store. We only stock what works in our area. Our pricing is compatible with the lower 48.

Boats

- Our boats are equipped with all of the Coast Guard required equipment, which includes floatation devices, flares, fire extinguishers etc.
- Each boat is equipped with additional equipment such as a dip net, shark hook, fish finder/GPS unit, down rigger, radios, tackle box, fish bat, etc.
- Our boats are equipped with radios for communication between guests and the lodge. We have a private frequency so feel free to ask each other where the fishing is hot. Only our guests will hear your conversation.

**Fishing License:**

- Doc provides your general fishing license as part of your fishing package. Generally, this is a 7-day, non-resident license. Licenses are issued upon your arrival. King stamps are automatically added to early season trips. Guests arriving later in the year may purchase a king stamp at the lodge.

Spin Casting:

- If you enjoy the excitement of catching salmon and dolly varden on spinning gear, Doc's has rods and spin casting reels available for use. We recommend using a 7/8 oz pixie, which is available for purchase in the store. There is no charge for the rod and reel.
- The same rod can be used for catching bait from the dock. Purchase a herring jig (sabiki rig) from the store and catch your own fresh bait.
